THE WATER WORKS.

Operations During the Year 1870. Chief Engineer Graft presented his annual report to Councils yesterday... The supply of water distributed during the past year has been much greater than during the previous year...

The increase in the water supply is in much greater ratio than the increase of population... This occurs, probably, on account of the multiplication of modern conveniences for using water...

The receipts from all sources have been \$935,370-96, being an increase of \$121,909-13 over the receipts of the previous year... The expenses for maintenance of all the works were \$448,604-84...

Also, an ordinance appropriating \$2000 to pay for maps, etc. for use in the suit of the Behlville Navigation Company against the city... Amended so that this should be paid in full, and agreed to.

CITY TRUSTS.

The Work of the Board for 1870. The report of the Board of City Trusts was rendered to City Councils yesterday... The Girard lands consist of about 18,000 acres outside of the city...

The receipts of the Girard estate for the year were \$661,140-01, and expenditures \$757,296-92... The amount expended for the Girard estate from the residuary fund was \$244,371-76...

On the 1st of January, 1870, there were in Wills' Hospital—males, 8; females, 6; number admitted during same term—males, 100; females, 101...
